# Stay safe!

**1. Always ask an adult's permission before cooking or using tools in the kitchen, especially the stove.**

**2. Wash Your Hands:** Clean hands are very important for food safety and should be the first step before touching any food or tools.

**3. Clean As You Go:** Cleaning spills and messes as you go will prevent slips and falls. Plus it makes it easier to have a clean kitchen at the end!

**4. Pay attention to what is hot:** If you are using the stove, remember that handles and utensils can get hot, use a potholder or towel to handle hot items.

**5. Practice Good Knife Skills:** Hold your knife by the handle with one finger along the top edge. Pay attention to your fingers and curl them into a bear claw to avoid cutting yourself while holding the food item. Only cut on a stable surface.

# Pumpkin Recipes

**Roasted Pumpkin Seeds-** Make sure to have an adult help when cutting into your pumpkin and using the oven.

1. Scoop the seeds out of your pumpkin with a spoon or your hands.
